Esercizio

- Scaricare i file che trovate on line dentro la cartella degli esercizi del capitolo 2:

you've downloaded them, look under the folder "chapter2/lounge" and you'll find "lounge.html", "elixir.html", and "directions.html" (and a bunch of image files).

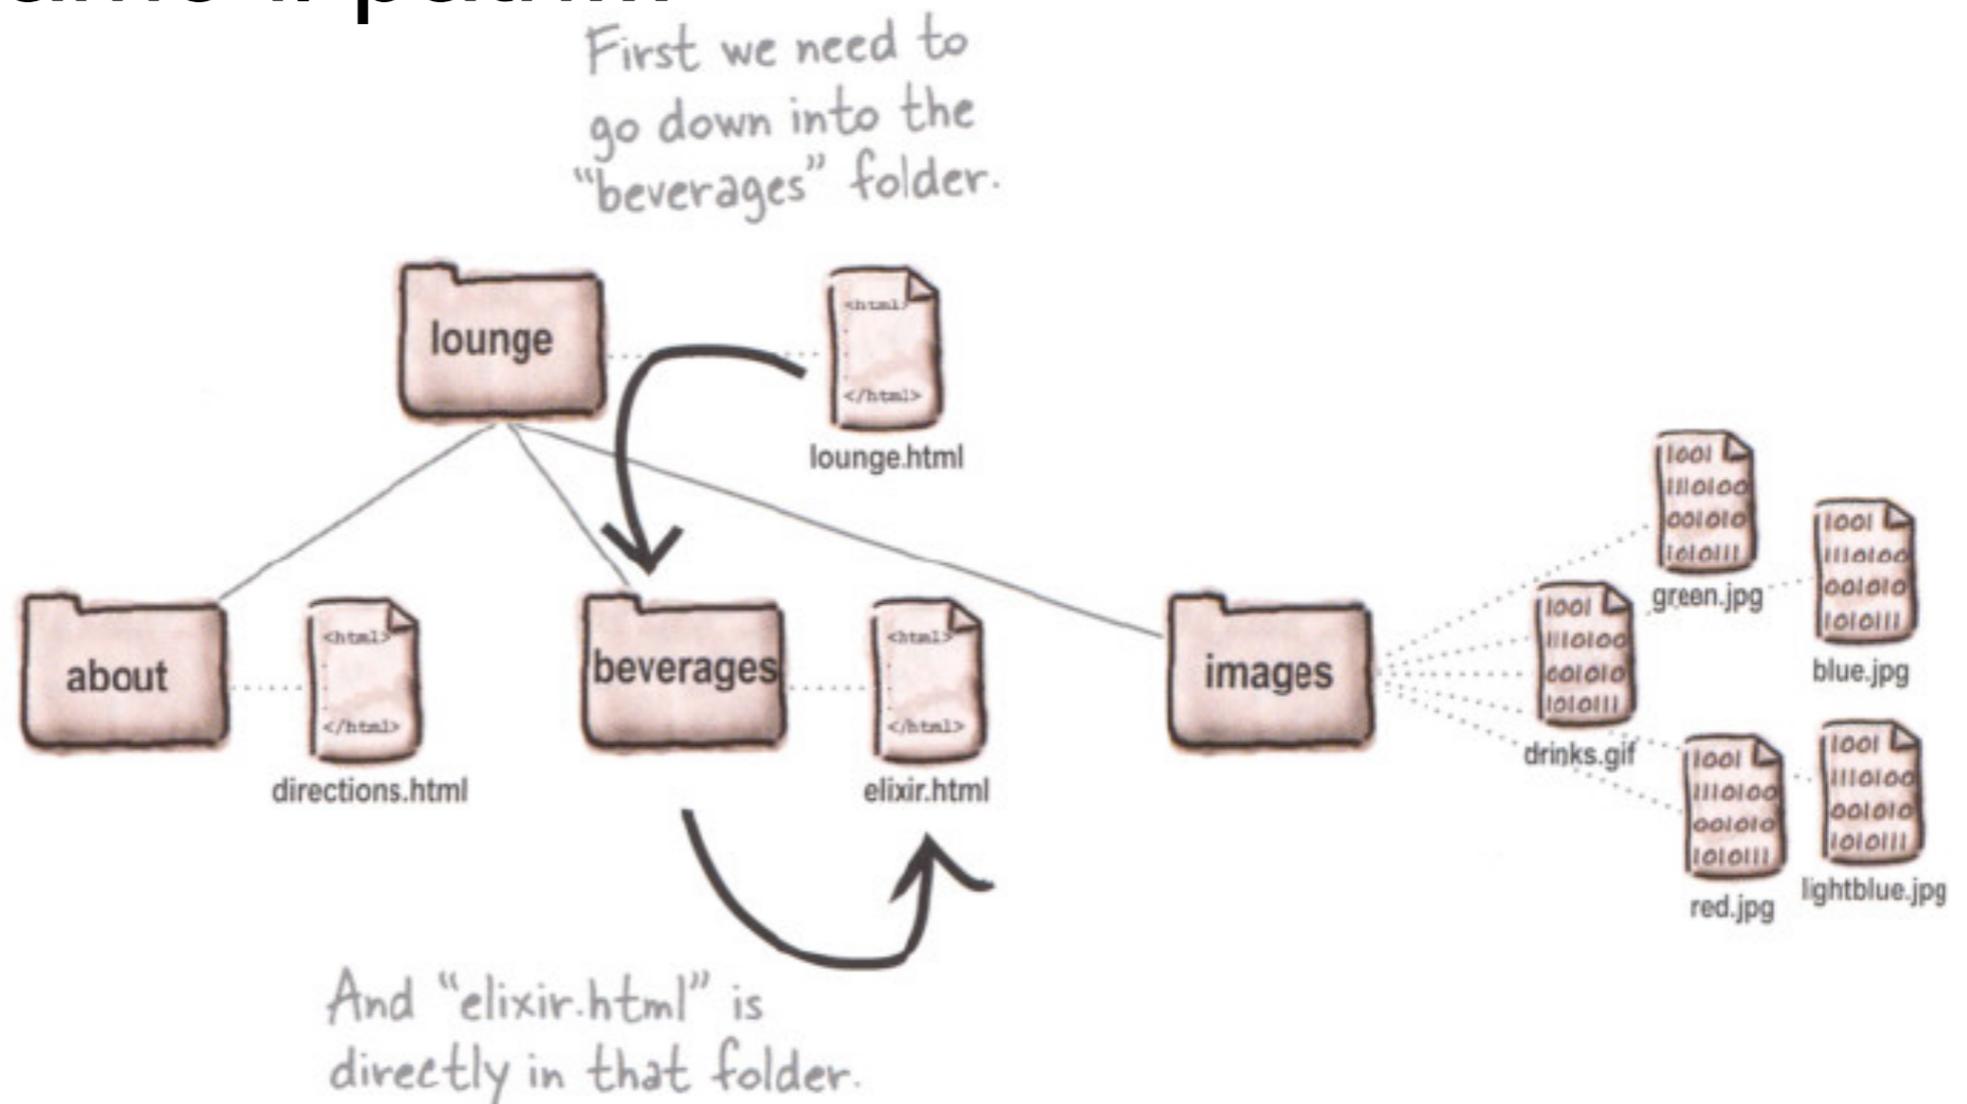

1-Organizzare le directory!

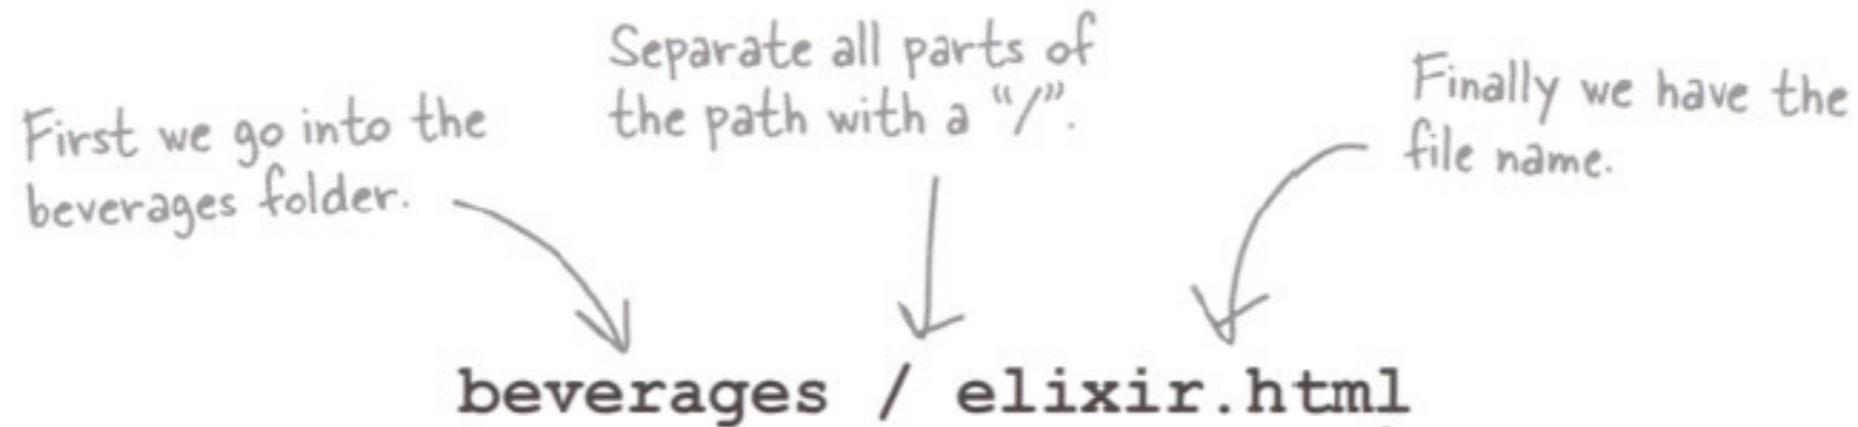

Provateelo ...

- ... non funziona ...
 - Perché???
- Modifichiamo il path!!!

Cambiare path!

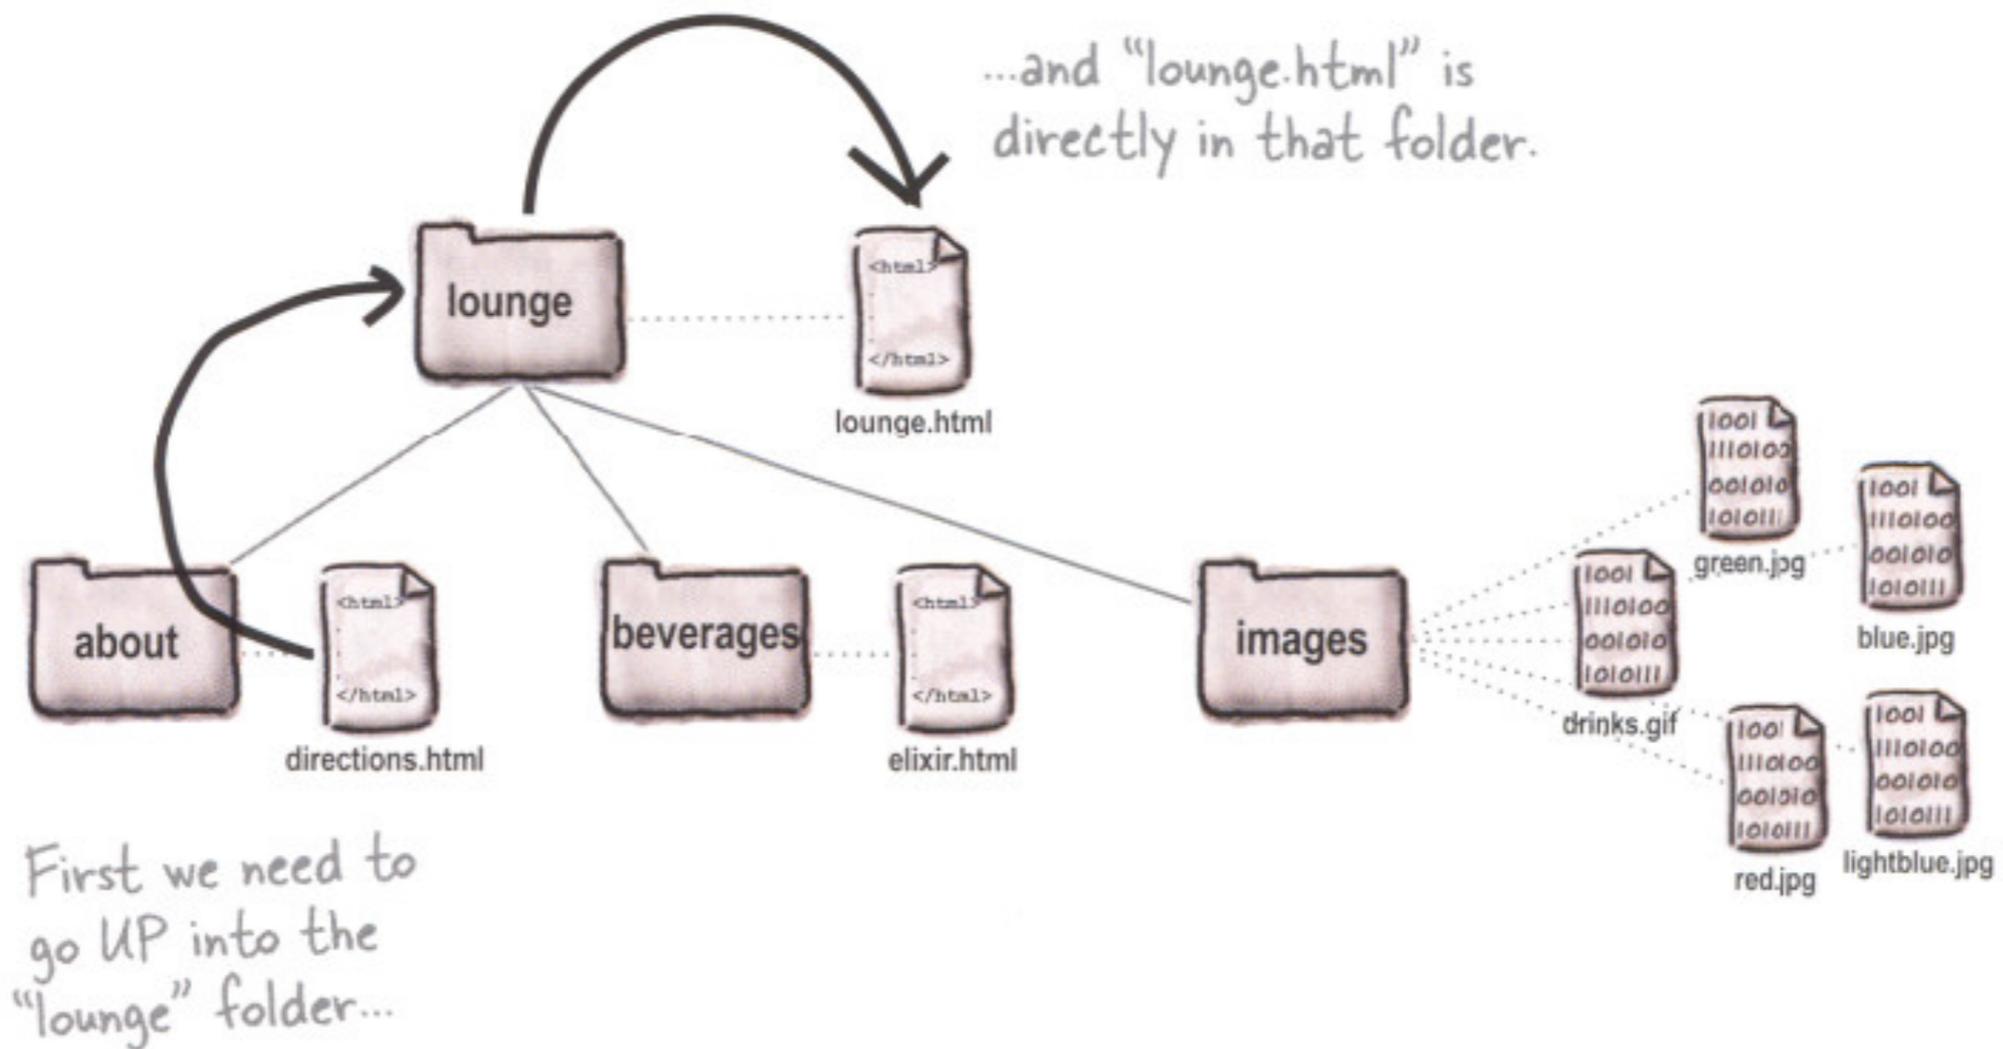

Putting it all together...

`elixirs`

We put the relative path into the href value. Now when the link is clicked on, the browser will look for the "elixir.html" file in the "beverages" folder.

E ora:

- Aggiungiamo un link al padre

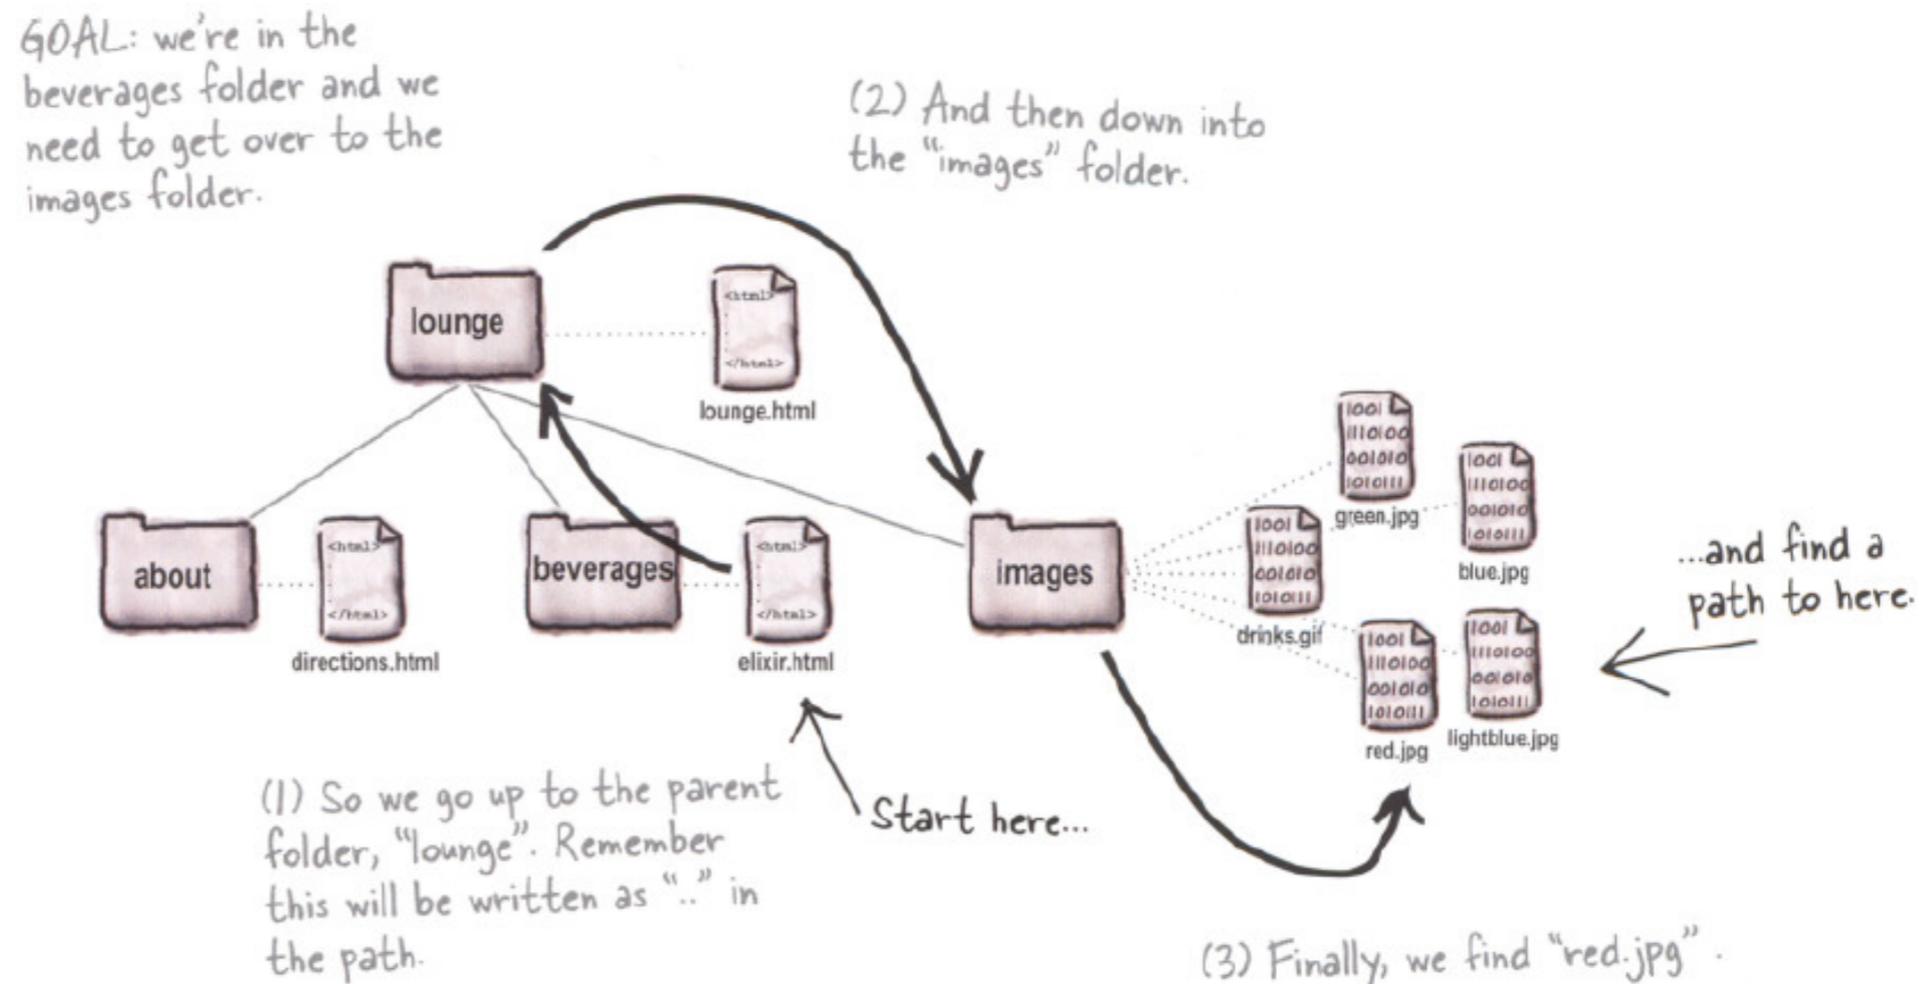

Controlliamo che tutti i file siano ok!

- Controlliamo il file elixir.html
 - Non funziona link all'immagine!!
 - Perché?

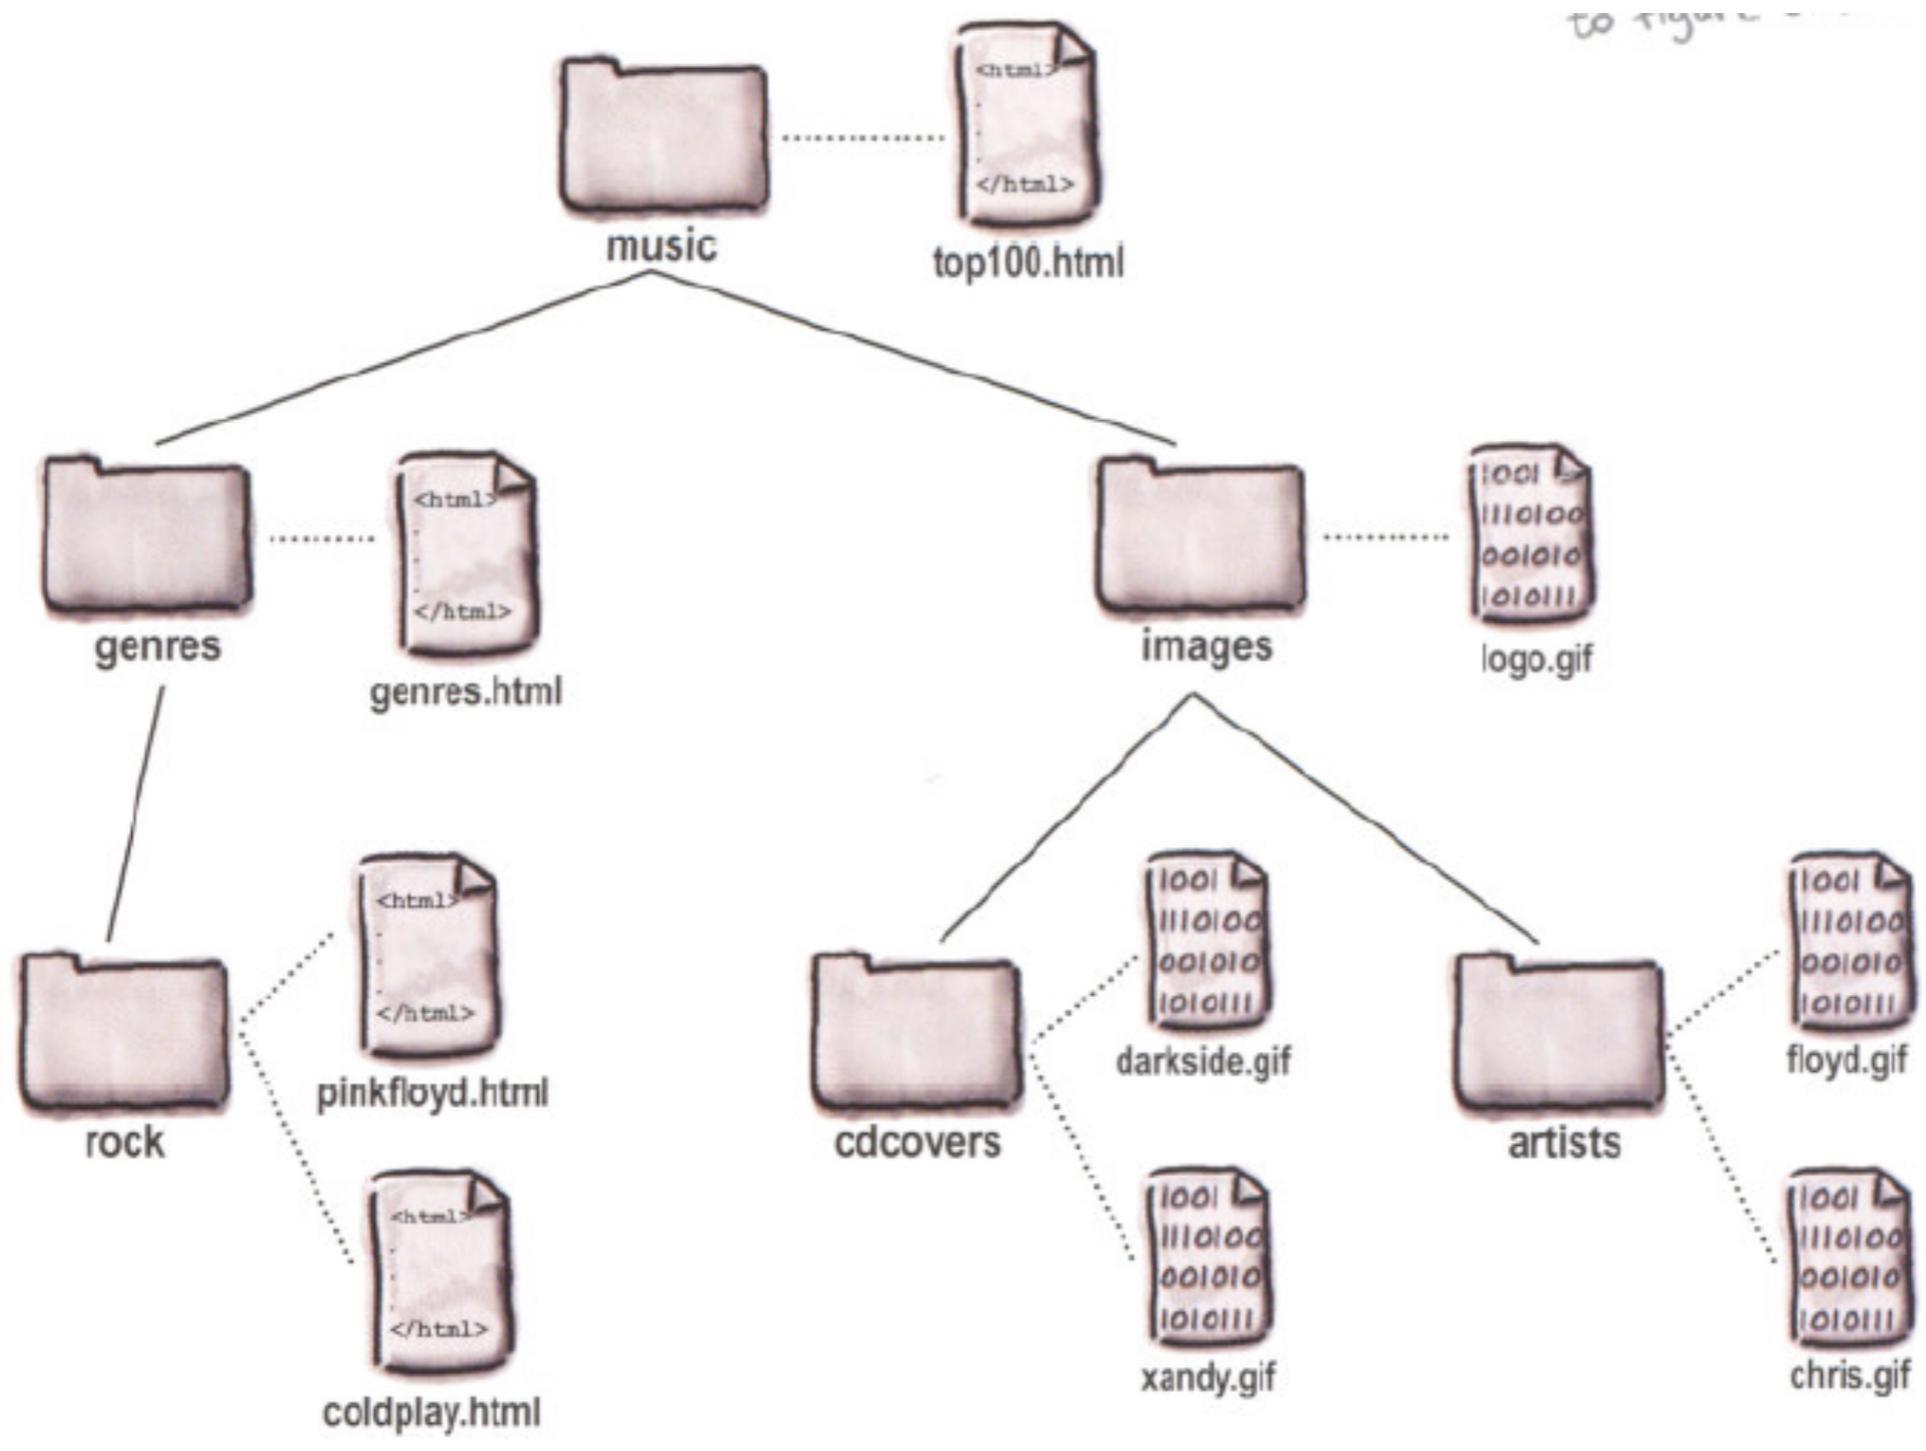

Controlliamo che tutti i file siano ok!

- Controlliamo il file elixir.html
 - Non funziona link all'immagine!!
 - Perché?

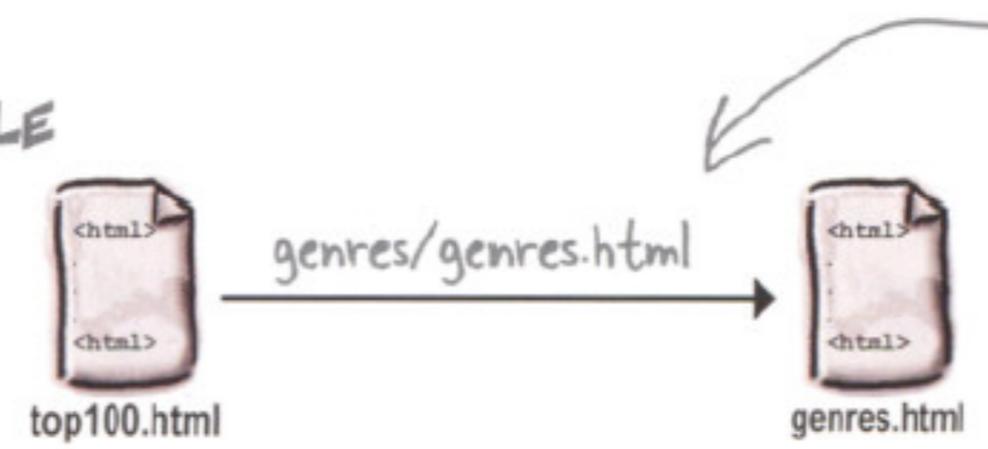

- E ora una sfida sui link tra voi!!

EXAMPLE

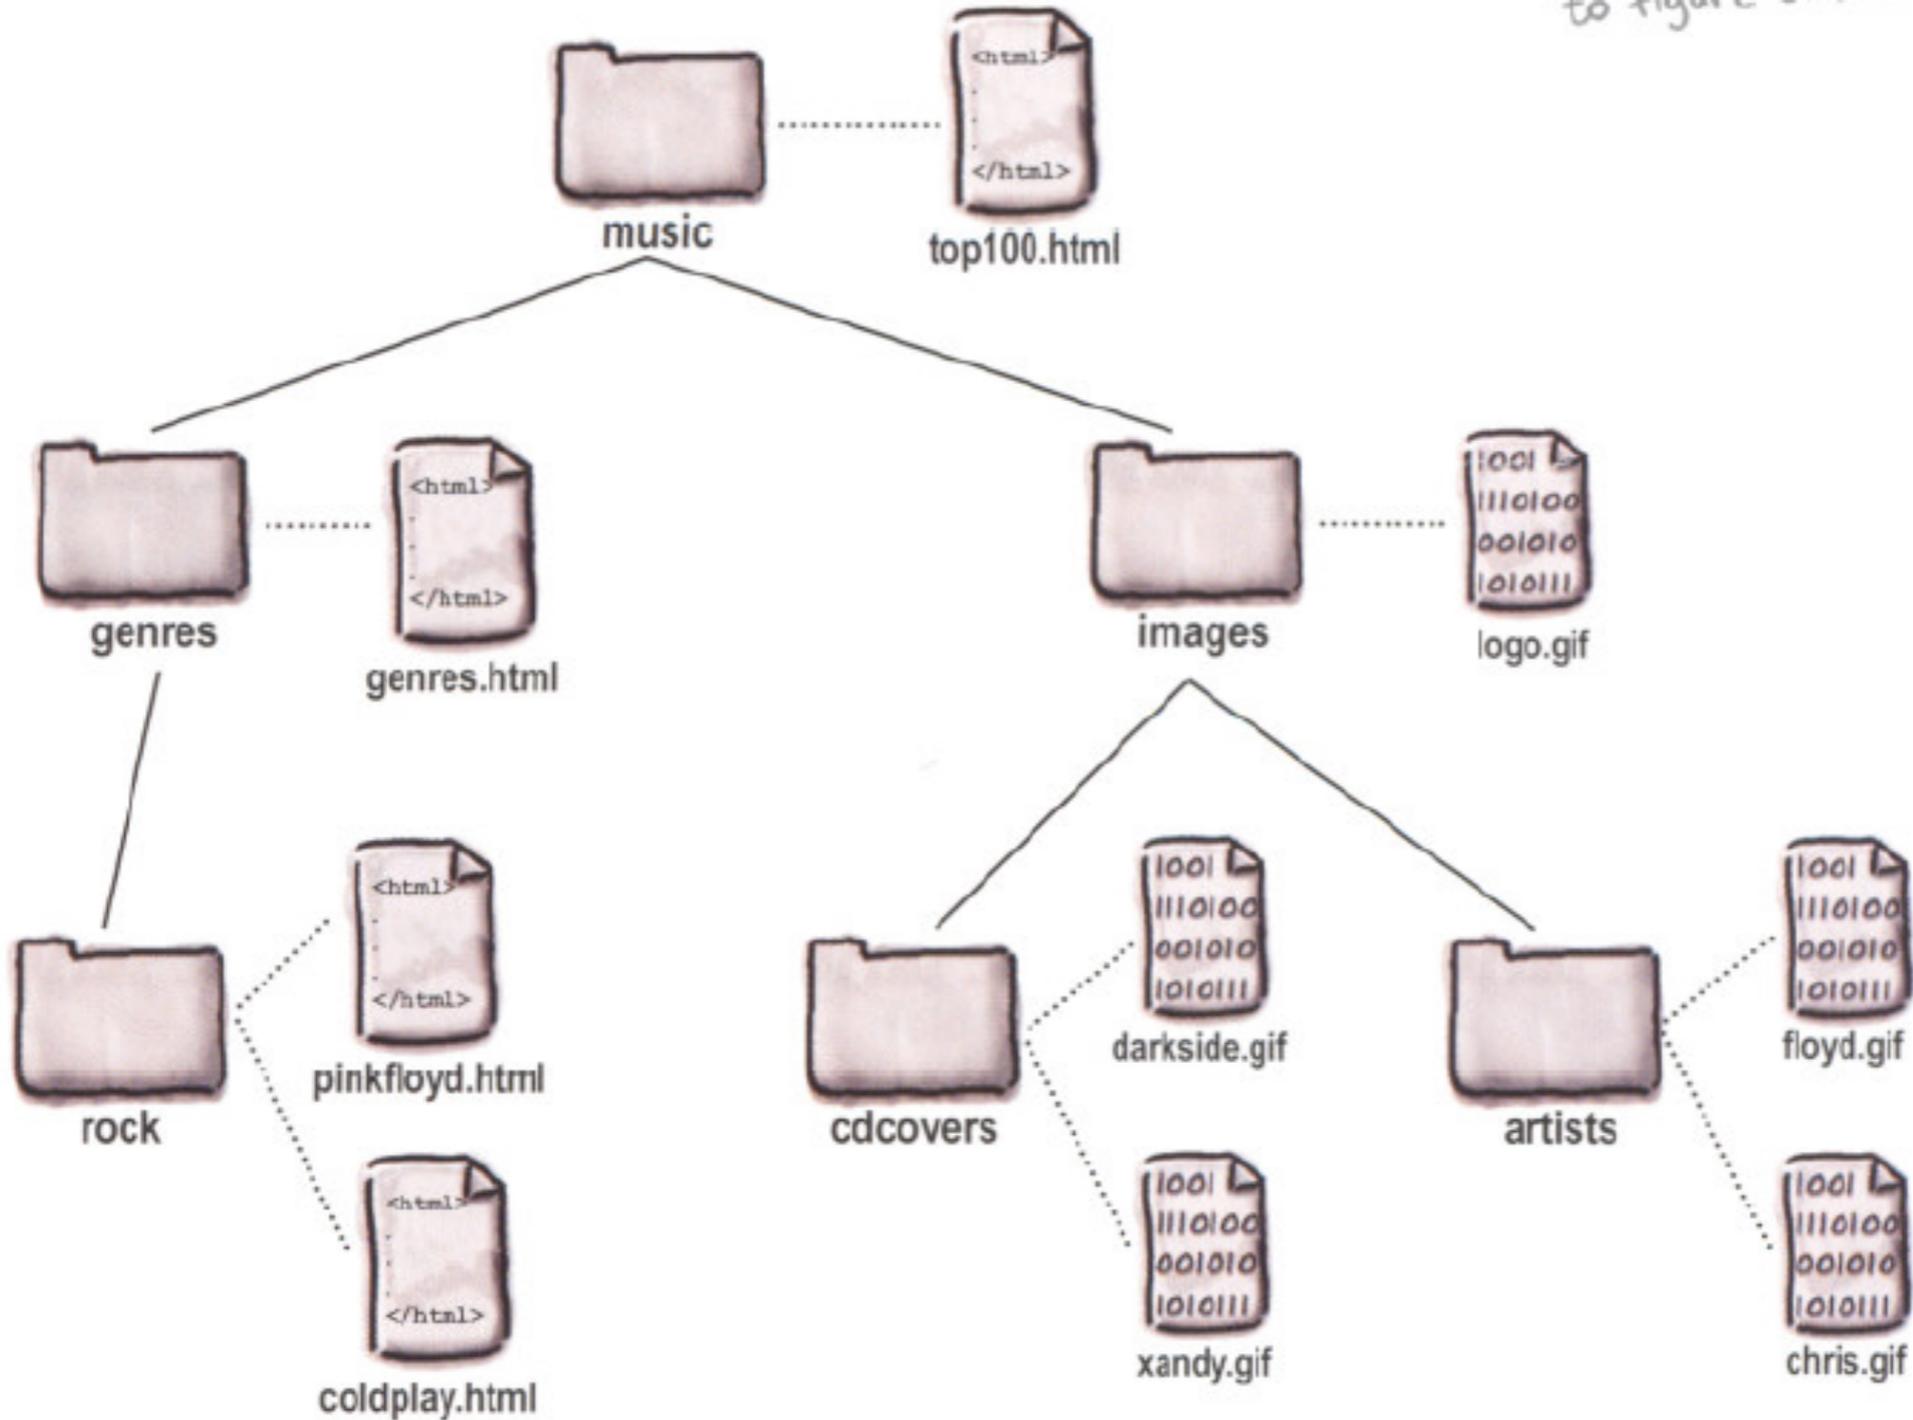

"top100.html" is in the "music" folder, so to get to "genres.html", we had to go down into the "genres" folder.
